the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'communication' field is defined as:

...the study of the processes of communication, the social, cultural, economic and political contexts in which these processes take place, and the impact of communication on society. (p. 10)

The 'information science' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information science on society. (p. 10)

The 'information studies' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information studies on society. (p. 10)

The 'information technology' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information technology on society. (p. 10)

The 'information systems' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information systems on society. (p. 10)

The 'information management' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information management on society. (p. 10)

The 'information policy' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information policy on society. (p. 10)

The 'information law' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information law on society. (p. 10)

The 'information ethics' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information ethics on society. (p. 10)
